

MAXITIA PROJECT INC.

ANNOUNCEMENT

May 2023

Maxitia Project Inc. has entered a Partnership with TradePro Tech Academy to create Medical Training Programs. Maxitia Project Inc. has a long history in the field of Medical and Community Health and Wellness Education. TradePro Tech Academy has been offering a diverse range of Training Programs in the fields of Electrician Assistant, HVAC, Plumbers Assistant, Handyman, Welder Training and OSHA Certification of many years in the Tri-State Area.

This partnership will start with the creation of a Medical Assistant Training Program. The goal is to train students to become Medical Assistants with a strong knowledge base. The program will be developed with a very in-depth yet easy to learn core curriculum. Maxitia Project Inc's has extensive experience in Graduate and Post-Graduate Medical Professional Education. The Medical Assistant Program Director and Coordinator, Dr. Leticia Villegas will head this program with the Assistance of Dr. Hector Javier Castro the Trade ProTech Academy Executive Director of Medical Education.

This collaboration seeks to make the Medical Assistant Program not just an opportunity for students to become members of the HealthCare Professions, but to also serve as a gateway to enter other HealthCare Professions, i.e., Laboratory Technologist, Pharmacy Technologist, Physical Assistant, Nursing, Home Health Aids, Physicians.

We are excited about the prospects of this collaboration and look forward to expanding its scope.

Isabel Leticia Castro
President and CEO
Maxitia Project Inc.
